Projects

E-Commerce application | Flutter

[GitHub](#)

Developed a RESTful API-driven e-commerce application, using feature-first design system. Utilized GetX for state management and Git/GitHub for version control.

- **Technology used:** Flutter, Rest api, Firebase, GetX, Github.

Task management application | Flutter

[GitHub](#)

Developed a task manager with RESTful CRUD APIs, adhering to N-Tier architecture. Implemented state management using GetX, with Git/GitHub for version control and Postman for testing.

- **Technology used:** Flutter, Rest api, Postman, GetX, Github.

News paper application | Flutter

[GitHub](#)

Developed a newspaper application using free APIs and N-Tier architecture. Employed Git/GitHub, Postman, and Figma for development, testing, and design.

- **Technology used:** Flutter, Rest api, Postman, GetX, Figma.

Skills

Domain: Problem Solving, DSA, OOP.

Language: C, C++, Dart.

Mobile: Flutter, GetX.

Tools: GitHub, Android-Studio, Firebase, Figma.

Problem Solving Activities

CodeChef: [\[Handle\]](#) - **Max Rating: 1179** - 1* Coder. Active competitor, consistently improving.

Codeforces: [\[Handle\]](#) - **Max Rating: 943** - Newbie. Active competitor, consistently improving.

LeetCode: [\[Handle\]](#) - **Total Problem Solved: 72+** DSA Problems.

Extra Curricular Activities

Member, XPSC CP Club – Phitron

October 2025 – Present

- Actively practicing competitive programming and exploring advanced DSA topics through coding contests and peer problem-solving sessions.

Freelance ux designer

October 2021 – July 2024

- Diagnosed usability problems via heuristic evaluation, delivering effective, user-centric designs and problem-solving UX solutions.

Certificates

App Development with Flutter

Ostad – (Ed -tech platform) – April 2024 – February 2025

CSE Fundamentals with DSA

Phitron – (Ed -tech platform) – April 2025 – September 2025

Education

BSS in Economics

National University of Bangladesh

Expected graduation date: July 2026
