---

## SUMMARY

Flutter Developer with a strong DSA background (Codeforces Max Rating: 1015). Experienced in building scalable apps using GetX, REST APIs, and Clean Architecture. Remote-ready freelancer with a track record of asynchronous collaboration and US/EU timezone flexibility.

## TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, GetX (State Management), Clean/Layered Architecture.
- **Backend & APIs:** RESTful API Integration, Firebase (Auth, Firestore), Postman, Stripe Payment Gateway.
- **Core CS:** Data Structures & Algorithms, OOP, C/C++.
- **Achievements:** 70+ DSA problems solved LeetCode | Codeforces Max Rating: 1018.
- **Tools & Collaboration:** Git, GitHub, Android Studio, Figma (UI/UX implementation), Jira, SCRUM, Remote collaboration.
- **Soft Skills:** Asynchronous Communication, Self-managed, Time-zone Flexibility

## PROJECTS

### E-Commerce Mobile Application | Flutter, GetX, Stripe API

[GitHub ↗](#)

- Developed a fully functional e-commerce platform handling complex state management for cart and user sessions using GetX.
- Integrated Stripe Payment Gateway to process secure transactions, demonstrating understanding of sensitive data handling.
- Implemented a feature-first design system to ensure code scalability and easier maintenance for future teams.
- Utilized Git/GitHub for version control, following industry-standard commit practices.

### Task Management System | Flutter, RESTful API, CRUD

[GitHub ↗](#)

- Built a productivity application featuring full CRUD operations (Create, Read, Update, Delete) via REST APIs.
- Architected the app using Layered Architecture to separate business logic from UI code, improving testability.
- Conducted rigorous API testing using Postman to ensure 99% uptime and error-free data synchronization.

## PROFESSIONAL EXPERIENCE

### Web & UX Designer | Self-Employed Oct 2021 – Present

- Successfully delivered custom WordPress solutions for international/local clients.
- Remote Collaboration: Managed client expectations, gathered requirements asynchronously, and delivered projects on strict deadlines.
- Managed client expectations by translating business requirements into technical specifications, ensuring 100% on-time delivery.
- Conducted heuristic evaluations to improve user experience, resulting in higher engagement for client websites.
- Adapted to US/EU time-zones for client meetings and handoffs, ensuring smooth workflow overlaps.

## EDUCATION & CERTIFICATION

- **App Development with Flutter** | Ostad (Ed-tech Platform) | April 2024 - Feb 2025
- **CSE Fundamentals with DSA** | Phitron (Ed-tech Platform) | April 2025 - September 2025
- **B.S.S. in Economics** | National University of Bangladesh | Expected Graduation: 2026 April
